PROFESSIONAL SUMMARY

Experienced Lead QA Engineer and SDET with 9+ years in BFSI domain, specialising in web, mobile, and API test automation using Selenium, Appium, TestNG, Cucumber/BDD, and Playwright. Proven track record in building and scaling automation frameworks, driving CI/CD quality gates via Jenkins, and managing regression suites across Agile/Scrum delivery cycles. Skilled in defect lifecycle management, test plan creation, UAT coordination, and risk-based test strategy. Leverages GenAI tools, GitHub Copilot, MCP integration, and self-healing locators to accelerate test script generation and reduce maintenance overhead.

WORK EXPERIENCE

Lead Software QA Engineer

SS&C Technologies | Navi Mumbai, IN | Oct 2024 – Present

- Achieved **90% UI test coverage** by implementing Serenity BDD with Selenium; automated regression pipeline via **Jenkins/GoCD**.
- Integrated **GenAI tools** (GitHub Copilot, MCP) for automated test script generation and self-healing maintenance, delivering **2x faster** scripting and reducing manual effort significantly.
- Led end-to-end test strategy and execution for US retirement systems (401k/IRA): validated IRS compliance, vesting rules, contribution workflows, and Form reporting.
- Authored and maintained **test plans, regression suites, and smoke test packs** aligned to sprint delivery and UAT sign-off.
- Trained QA team on BDD best practices using JIRA for defect tracking; improved test maintainability by **35%**.
- Extended BDD framework to API testing with **Serenity Rest Assured**, validating RESTful services (JSON/XML).
- Integrated **Applitools** for visual regression testing within Serenity BDD flow.

Senior Quality Engineer

Honeywell International | Mumbai, IN | Apr 2023 – Oct 2024

- Automated Salesforce-based TrackWise Digital using **Selenium-TestNG POM** framework; increased test coverage by **45%** and reduced manual effort by **60+ hours/sprint**.
- Orchestrated **Jenkins** and **LambdaTest** for parallel cross-browser execution; cut regression cycle time by **70%** and maintained 24/7 CI/CD pipeline stability.
- Integrated **Applitools AI** for visual validation, detecting **25% more UI regressions** with 100% cross-browser compatibility.
- Automated REST APIs using **Rest Assured** with data-driven approach, improving validation reliability by **40%** for complex JSON/XML responses.
- Conducted API performance testing with **NeoLoad**, identifying high-latency bottlenecks and improving throughput by **20%**.
- Delivered ROI-focused quality reports contributing to a **10% improvement** in product release quality; managed defect lifecycle via **JIRA**.

QA Test Lead

QualityKiosk Technologies Pvt Ltd | Mumbai | Sep 2016 – Apr 2023

- Designed and delivered automation frameworks for web, mobile, and Windows application testing using **Selenium, Appium, Webdriver.io, and UFT**.
- Managed a team of 5 QA engineers across Agile/Scrum sprints; facilitated daily standups, sprint planning, and retrospectives.
- Built net banking test automation for **HDFC Bank, Kotak Bank, and IDFC Bank** covering mobile and web channels.
- Developed Keyword-Driven, Data-Driven, and Hybrid frameworks integrating Excel and SQL databases for test data management.

- Built Hybrid Framework using **Selenium, TestNG, Git, and SQL**; tracked all defects end-to-end in **JIRA**.
- Achieved **30% reduction in critical defects** through risk-based test strategy on high-profile BFSI releases.
- Implemented Agile Test Pyramid guidelines; maintained smoke testing, regression suite, and UAT packs across sprints.

TECHNICAL SKILLS

Test Automation	Selenium WebDriver, Appium, Playwright, Katalon, UFT, Webdriver.io, SeeTest
API Testing	Postman, Rest Assured, Swagger, Serenity Rest Assured
Frameworks & Methods	Serenity BDD, Cucumber, TestNG, POM, Keyword-Driven, Data-Driven, Hybrid
CI/CD & DevOps	Jenkins, GoCD, Docker, Git, GitHub, Azure DevOps
Test Management	JIRA, Zephyr, Test Plans, Regression Suite, Smoke Testing, UAT, Defect Lifecycle
Performance Testing	JMeter, NeoLoad
Cloud & Cross-Browser	BrowserStack, LambdaTest
Visual Testing	Applitools AI
AI & Intelligent QA	GitHub Copilot, MCP Integration, Self-Healing Locators, Testim, GenAI Test Generation
Programming Languages	Java, JavaScript, Python, VBScript
Methodologies	Agile/Scrum, Risk-Based Testing, Agile Test Pyramid, Sprint Planning
Domain	BFSI – Banking, US Retirement (401k/IRA), IRS Compliance, Salesforce

EDUCATION

PGDM – IT Project Management (Distinction) | Welinkar Institute of Management | 2024
B.E. – Electronics & Telecommunication (GPA 7.05) | Mumbai University | 2016
HSC 12th (83%) | Maharashtra State Board | –

CERTIFICATIONS

ISTQB Certified Tester – Foundation Level (CTFL) | IIST | 2022 – Present
